

Main Salon of the 77-foot cruising yacht "NEDEVA," as designed and built for E. T. Stotesbury, Esq., of Philadelphia and Palm Beach.

Deck View of the "NEDEVA"

## A Distinctive 77-Footer

### Built to Original Specifications

### Standardized by Popular Demand

The magnificent 77-foot cruising yachts combine the most advanced features of custom design and construction with the economies of standardized production. Equipped with every conceivable comfort and modern convenience they are unequalled in their accommodations, sturdiness and seaworthiness—in fact in *all* the qualities that go to make your life on the water really enjoyable.

You are always welcome at our shipyard to inspect the 77-footers now being built. Or write for full details, exterior and interior views, etc.

The New York Yacht Launch & Engine Co., has for over thirty years, specialized in the design and construction of fine yachts to individual specifications. Our designers will be glad to discuss your original ideas and desires with you—no obligation on your part.
